Weakened Vitality IMPOVERISHED BLOOD.

Read what Ayer's Sarsaparilla did for the Rev. Z. P. Wilds, a well-known city missionary in New York and brother of the late eminent Judge Wilds:

"I was for many years a sufferer from boils and other eruptions of a like nature, caused by the impoverished state of my blood. My appetite was poor and my system a good deal run down. Knowing the value of Ayer's Sarsaparilla, by observation of the good it had done to others, I began taking it. My

Appetite Improved

almost from the first dose; then my general health improved, and now it is excellent. I feel a hundred percent stronger, and I attribute this result to Ayer's Sarsaparilla, which I recommend with all confidence as the best blood medicine ever devised."

GROSS PUBLIC INSULT

It is with mingled feelings of indignation and wrath that one reads of the proposed formation of a Citizens' Committee to investigate the proposed outrages of the police. If it is serious, it is the greatest insult that could be offered to the Police Department and to every member of the Executive for citizens to claim that it is necessary to organize to protect life and property. If any respectable citizen has so far been misled as to sign the alleged petition for a Citizens' Committee, he ought to consider what it implies, that he may put himself right with the community by withdrawing.

Let it indicate an utter demoralization throughout the police force, for no single policeman could practice what is charged for any great length of time without making it necessary to have confederates. If there were but one or two single instances of misconduct at long intervals of time, no committee would be required. They would ordinarily right themselves.

2nd.—It indicates a state of moral depravity in the Marshal that would be appalling. Any well authenticated case of misconduct on the part of his subordinates that he would refuse to investigate would make him more guilty than the wrong doers.

3rd.—It indicates an utter state of indifference in the Attorney General who would for one moment permit such a Marshal to remain in office, for if the Marshal refuses to give satisfaction the Attorney General is right at hand to be appointed.

4th.—It indicates that the President and his other Cabinet officers are all in collusion when they consent to be associated with such a record of an Attorney General, for they are also at hand to listen to any well-founded grievances.

5th.—It indicates that the public, who are responsible for the selection of these officials, is utterly irresponsible and that in this immature committee only lies wisdom, purity and ability.

6th.—It indicates a selfish motive. Where any great reform is proposed the reformers do not start out with the avowed purpose of raising money to employ any particular individual. Such a course is preposterous. A man must be dead to all spirit of patriotism who would take a fee for whatever reasonable service he could render in such a time of national evil. Let the committee be formed if need be, and then investigate whether the evils exist. If they are found to exist let them employ, if necessary, a lawyer or lawyers to present any case they may think proper to bring, and then let the committee be free to employ such persons as they see proper at the time; and in this connection it indicates a preference which might possibly injure the feelings of some other less fortunate attorney to have it thus indirectly intimated, that in such a crisis, only one lawyer or firm of lawyers should be thought wise, upright and pure enough to be permitted to render service either for pay or otherwise.

7th.—It indicates that all means for obtaining lawful redress have failed, and that the extraordinary means of appealing to the people alone remains, which is an insult as baseless as it is unnecessary. It is a lie upon the face of it and shows that the promoters are not acting in good faith, for if an officer has been guilty of the unauthorized he can

be convicted of robbery or any other appropriate charge for violating the criminal laws; and his arrest can be procured by a warrant, and private counsel can prosecute, so that there can be no possibility of collusion; and to say that the offender cannot be brought to justice under such circumstances is to include the Judiciary in the wholesale charge of corruption.

Can any self-respecting member of this community be a party, directly or indirectly, to such an atrocious petition as is outlined in this morning's Advertiser.

ST. ANDREW'S PRIORY.
Closing Exercises and Fancy Fair
Held Yesterday Afternoon.

The closing exercises of the pupils of St. Andrew's Priory took place yesterday afternoon on the lawn of that institution in the presence of a large number of the parents of the pupils and friends of the school. The government band was present and enlivened the proceedings with music. Among the numbers on the program which seemed to give most satisfaction were the May pole dance, "Merry Little Maidens," the "Broom Brigade" and "Flower Song." Several of the Jubilee songs were very prettily sung by the school. The distribution of prizes brought the proceedings to a close.

During the afternoon the annual fair and sale of fancy work was held in the main schoolroom, where refreshments and flowers could also be obtained.

Company D Minutemen.
There will be a meeting of Company D tonight to make final arrangements for the proposed minstrel shows. It is likely that the management of the affair will be placed in the hands of Messrs. McCarthy, Jones and Bergstrom. Gus Murphy will be stage manager and general director. Dr. Moore has volunteered to introduce his puppets, Finney and Kohi to give exhibition club swinging and a number of others have offered their services.

Two performances will be given at the Opera House on consecutive Saturday evenings and the net proceeds will be divided equally between the performers and the company.

FROM A NAVAL EXPERT.
American Use of Electricity in War
Ship Commanded.

London, June 26.—Laird Clowes, the naval expert, in an article in this morning's Daily Mail on the Spithead review, highly praises the American use of electricity for various purposes in men of war, and declares that in this matter England is years behind the United States. He predicts, however, that the decks of the Brooklyn will not stand the wear and tear of half the ordinary term of commission because the process of fire proofing has made the wood soft and spongy.

Advertising a Deserting Wife.
The following unique advertisement recently appeared in a Western paper:

"Julia, my wife, has grown quite rude; She has left me in a lonesome mood; She has left my board; She has taken my bed; She has given away my meat and bread; She has left me in spite of friends and church; She has carried with her all my shirts."

Now ye who read this paper Since she cut this luckless caper, I will not pay one single fraction Of any debts of her contraction."

TRAINS FOR WAIALUA TO BE RUNNING IN APRIL.

Contracts Let for Grading—Costly Rock Cutting—Powerful Locomotives Ordered.

B. F. Dillingham and M. P. Robinson, leading partners in Oahu's greatest enterprise—the O. R. & L. Co.—were met at noon and questioned about the progress of the Waiialua extension. Mr. Dillingham answered in tones of cheerfulness:

"We have contracts with four parties to grade the road from Waiialua to Waiakoa. Messrs. Armstrong and Andrade have the section beyond Kaena Point.

"C. Jensen and John Wilson have the rock cutting on this side of the point. There is four and a half miles of it, and the cost will be from \$36,000 to \$40,000.

"H. W. Norton the surveyor has the eight miles from Waiakoa to the rock cutting.

"We have metal for 39 miles ordered and on the way—48-lb. steel rails, fish plates, etc. One vessel left New York on the 15th of June, another will be dispatched the first of August, and a third the last of that month.

"Lately we received five miles of metal with which we are laying the new track from Honolulu to Pearl City.

"Three new Baldwin locomotives have been ordered. Two of them are 30 tons and one is 18 tons. They have the latest improvements, are, in short, the finest machines the works can turn out. Their hauling capacity is 900 tons.

"You asked when trains would be running through? Well, I will be ready to operate about the first of April if everything goes right."

ELOPERS IN THIS CITY

CAME DOWN ON THE LAST TRIP OF THE AUSTRALIA.

A Sharp Young Man Puts the Wool Over His Father's Eyes and Gets a \$1000 Check.

According to the Call of June 27, this city is now sheltering a young married couple whose elopement from San Francisco caused considerable talk. The runaway couple were married at San Rafael several months ago, but the fact of the ceremony having been performed was carefully kept from the young man's father, a wealthy merchant of San Francisco. Jerome Arendt is the son's name and his bride was Miss Dora Uphoff, a pretty telephone girl of Hayward, near Oakland.

Knowing that the young people were very much together and being very desirous of breaking off what to his mind was an undesirable match, Mr. Arendt Sr. made his son a very generous offer of a trip to Australia, promising him a big check when he got on board the steamer. He stayed with Jerome until the gang plank was drawn ashore, and then he took a \$1000 check from his pocket and told the boy to have a good sensible time with it. The old gentleman then went ashore and after seeing the steamer leave went home happy.

But while he was congratulating himself, there were two people in a stateroom on the steamer who were examining that check. One was the young man and the other the bride, who had boarded the steamer early and kept below until her husband should tell her everything was safe. It is surmised that the young lady's parents were aware of the marriage and assisted in the elopement.

The Summer School.
Dr. Brown addressed the teachers attending the Summer School twice yesterday. In the morning his subject was: "The Relation of the Feelings to Thought," and in the afternoon he spoke on "The Tompkins School." In the evening the pupils tendered him a reception at the High School, nearly 200 being in attendance.

Buggies and Phaetons.
Gus Schuman begs to inform the public that he has on hand a fine new line of Surreys, Buggies, Phaetons, Road Wagons and Carts; Double and Single Buggy, Express and Hack Harness made specially for the Hawaiian trade. These goods are now on exhibition at the Club Stables.

BY POLICE AT CALLAO.
Inquiry here confirms the story coming from Lima to the effect that the State Department has lodged a demand with the United States charge of legation at Lima for the release of the mate of the American bark "Uncle John." He was ashore on December 19 last at Callao, and was arrested because of his constant demand for "Rainier Beer." On tap or in bottles at the Criterion Saloon.

Don't be persuaded to accept what is not really good in enlarged portraits, just because you have given an order for one. King Bros. will give you something infinitely better and cheaper than you can get anywhere else in town.
